

# JOB POSTING 招聘启事

GRAPHIC DESIGNER | DECEMBER 22, 2011

平面设计师 | 2011年12月22日

## About Lantern

Lantern is a brand identity and graphic design agency working for mostly medium-sized international companies located in Shanghai.

Our typical projects include brand identity (logo, colors, typography, and layout guidelines), websites, brochures, marketing emails, stationery, templates, and other marketing materials in online and print format.

## The Job

We're seeking a full-time entry level graphic designer to work with us on our projects for these clients.

This is an entry level position for a local designer with a graphic arts degree and possibly a few years' experience working as a graphic designer.

## Skills

We use Adobe Creative Suite software including Photoshop, Illustrator, InDesign, and Dreamweaver. Besides daily conversation in Chinese, our work process requires the ability to read basic directions in English.

The most important attributes for this position are care for the quality of one's work, organization, attention to detail, and a desire for constant improvement.

## What to Expect

We will help you grow and expand upon your graphic arts background with training in international-standard work processes and sharing of feedback directly from clients on your work.

As basic work processes are mastered, creativity and a strong design sense for layout, colors, and typography will be increasingly important in progressing from this entry-level position to more advanced work.

Our agency provides a supportive workplace and values work/life balance. Our working hours are 9:30AM - 6PM, Monday - Friday, with compensation provided for any overtime worked. We follow industry trends, encourage technical research, and look for internal training opportunities as time allows.

## Application

To apply for this position, please email your CV and digital portfolio to Ms. Felicia Geng at [f.geng@lanterndesign.com](mailto:f.geng@lanterndesign.com) with subject line "申请初级设计师". Optimized graphics in attachments are encouraged; links to online portfolios are even better. Applications missing either CV or portfolio will not be reviewed.

Thank you for your interest! We look forward to hearing from you.
